Profile

Being a passionate front-end developer, I bring together a mix of creativity and technical skills to each project. I have a keen eye for design and a strong commitment to ensuring that every web application I work on delivers a seamless and user-friendly experience. Transforming concepts into intuitive and visually appealing designs is where I thrive the most.

Work Experience

Web Designer *at* **Zarapxana**
2022 May - 2023 May

- **Website Design and Development:**
  - Create a visually stunning and user-friendly website that aligns with the brand identity of the jewelry shop.
- **HTML and CSS Updates:**
  - Assist in making basic HTML and CSS updates to the website, such as text changes, color adjustments, or minor layout modifications.
  - Learn and implement best practices for front-end development.
- **Image Editing:**
  - Work on enhancing product images for online display, ensuring they are visually appealing and accurately represent the jewelry pieces.
  - Optimize images for web performance and consistency.

Front-end developer at **5G Academy**
2023 May (Italy, Hybrid)

- **HTML, CSS, and JavaScript Development:**
  - Assist in building and maintaining the front-end structure of web applications using HTML, CSS, and JavaScript.
  - Learn and apply best practices for coding standards and structure.
- **Responsive Design:**
  - Work on creating responsive and mobile-friendly user interfaces to ensure a seamless experience across various devices and screen sizes.
- **Debugging and Issue Resolution:**
  - Participate in identifying and resolving bugs, issues, and inconsistencies in the front-end codebase.
  - Learn debugging techniques to improve code quality.
- **Version Control:**
  - Familiarize yourself with version control systems (e.g., Git) and participate in code repositories, branching, and collaboration with other team members.
- **Integration with Back-End:**
  - Collaborate with back-end developers to integrate front-end components with server-side logic, ensuring smooth communication between the two.
